<b>Office Action Summary</b>	<b>Application No.</b> 10/651,134	<b>Applicant(s)</b> GOLLA, PRASAD N.	
	<b>Examiner</b> SALMAN AHMED	<b>Art Unit</b> 2419	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

Claims 1-31 are pending.

Claims 1-31 are rejected.

***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

3. In regards to claim 1, lines 18-19 state “synchronizes said routing tables” without clearly specifying what they are being synchronized to. As such, claim 1 is being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

4. Claims 13-16 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential structural cooperative relationships of elements, such omission amounting to a gap between the necessary structural connections. See MPEP § 2172.01. The omitted structural cooperative relationships are: Claim 13 lines 13 and 14 states “an update agent plane is separate from a control plane and a data plane”, without clearly specifying the relationship of the update agent plane, control plane and data plane with rest of the limitations of the claim stated in lines 1-12. As such, claim 13 is being incomplete for omitting essential structural cooperative

Art Unit: 2419

relationships of elements, such omission amounting to a gap between the necessary structural connections.

5. Claims 17-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

6. In regards to claim 17, lines 10-11 state "synchronizing said routing table information..." without clearly specifying what it is being synchronized to. As such, claim 17 is being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

7. Claims 21-25 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

8. In regards to claim 21, lines 11-13 state "synchronizes said routing tables" and "synchronizes said forwarding tables" without clearly specifying what they are being synchronized to. As such, claim 21 is being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

9. Claim 26 recites the limitation "said forwarding tables" in line 9. There is insufficient antecedent basis for this limitation in the claim.

10. Claims 26-31 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 2419

11. In regards to claim 26, lines 7-8 state "synchronizes a plurality of routing tables" without clearly specifying what they are being synchronized to. As such, claim 26 is being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

12. Claim 26 is rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential structural cooperative relationships of elements, such omission amounting to a gap between the necessary structural connections. See MPEP § 2172.01. The omitted structural cooperative relationships are: Claim 26 lines 2-3 state "a first network element" and "a second network element" while lines 4-10 state "at least one of said first network element and said second network element is comprised of a router...", without specifying the relationship between the two network elements if one of said first network element and said second network element is comprised of a router, what is the functionality of the other network element, the reasons for having two network elements and their individual relationship with rest of the limitations of the said claim. As such, claim 26 is being incomplete for omitting essential structural cooperative relationships of elements, such omission amounting to a gap between the necessary structural connections.

13. Claim 27 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

14. Claim 27 states "an update agent plane" in line 11. It is unclear if the "update agent plane" of claim 27 is the same "update agent plane" of independent claim 26 line

Art Unit: 2419

6 or if it is a different one. As such, claim 27 is being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

***Allowable Subject Matter***

15. Claims 1, 13, 17, 21 and 26 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

16. Claims 2-12, 14-16, 18-20, 22-25 and 27-31 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

17. Applicant's arguments see pages 14-17 of the Remarks section, filed 1/21/2009, with respect to the rejections of the claims have been fully considered and are moot in view of new ground of rejections presented in this office action.

18. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

Art Unit: 2419

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
